

YeneQR

The All-in-One Restaurant Management Platform

A comprehensive platform to digitize and streamline daily restaurant operations — menus, orders, reservations, kitchen workflow, staff, CRM, analytics, and multi-branch management from one centralized system.

Vision: Empower restaurants with technology that improves efficiency, customer experience, and business growth.

Ethiopia's leading restaurant technology platform

THE CHALLENGE

Common Challenges in Restaurant Operations

While global restaurants digitize, most Ethiopian restaurants still rely on manual processes.

Printed Menus

Costly to print, hard to update

Manual Orders

Slow, errors, illegible to kitchen

Kitchen Chaos

No ticket system, missed orders

Manual Reservations

No-shows, double-bookings

No Analytics

No data on bestsellers or revenue

No CRM

Cannot track customers or loyalty

Multi-Branch Chaos

Cannot manage locations centrally

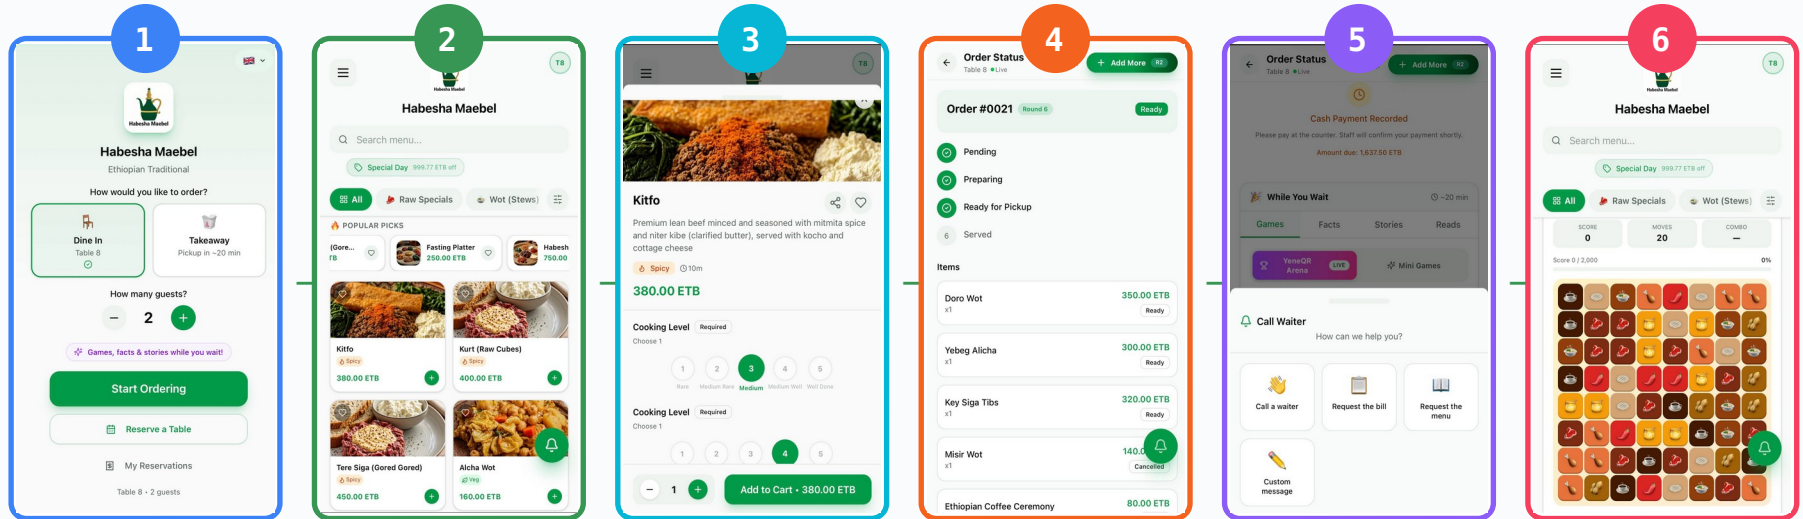

Limited Payments

No Telebirr, Chapa, CBE Birr

YeneQR solves all of this

End-to-End Guest Journey — From Scan to Pay

Scan QR → browse menu → customize order → track status → pay → play games.

1. Scan QR & Choose Dine In

2. Browse Menu & Categories

3. Customize & Add to Order

4. Track Order Status Live

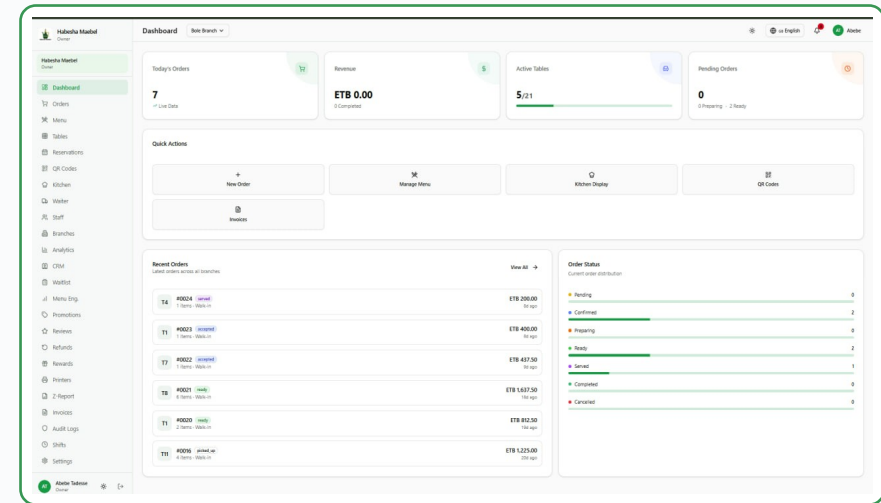

5. Pay: Cash, Telebirr, Chapa

6. Play Games While Waiting

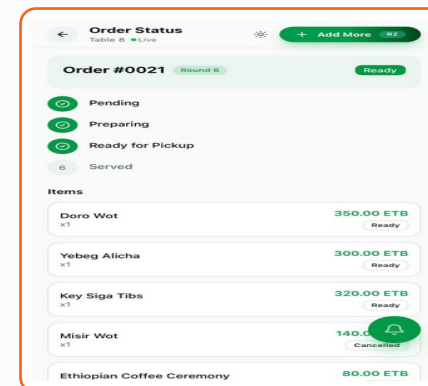

Complete Operational Control From One Dashboard

QR Menus, Online Ordering, Kitchen Mgmt, Waiter Mgmt, Tables, Staff, Multi-Branch, CRM, Analytics, Waitlist.

- ✓ Live Orders Dashboard

- ✓ CRM, Promotions & Loyalty

Admin Dashboard — Real-time orders, revenue, table status

Kitchen Tracking

**One platform
replaces 5+ tools**

No more switching between POS, spreadsheets, and paper tickets. Real-time from one login.

How YeneQR Compares to Global Leaders

Same operational power as Toast and Lightspeed — with a revenue model built for emerging markets.

Feature	Toast	Shopify	Square	Lightspeed	YeneQR
POS & Order Mgmt	✓	—	✓	✓	✓
Kitchen Display	✓	—	—	✓	✓
QR Menu Ordering	—	—	—	—	✓
Multi-Branch	✓	✓	—	✓	✓
CRM & Loyalty	✓	✓	—	✓	✓
Reservations	✓	—	—	✓	✓
Games & Entertainment	—	—	—	—	✓
Telebirr/Chapa/CBE	—	—	—	—	✓
Amharic/Multilingual	—	Partial	—	Partial	✓
Revenue Model	Sub+Tx	Sub+Tx	Free+Tx	Sub+Tx	Decoupled

Key difference: Global platforms couple subscription to transaction fees. YeneQR decouples them — fee rate is negotiated per-restaurant, independent of the subscription plan.

BUSINESS MODEL

A Revenue Model Built for Emerging Markets

PER-TRANSACTION FEE

0.5% — 3%

Charged on every captured payment. Rate set per-restaurant — negotiable. Excludes tips and tax.

Default: 3%

Enterprise: 1%

Charity: 0%

VOLUNTARY SUBSCRIPTION

0 — 5,000

ETB/mo

Optional monthly subscription for advanced features.

No hard limits — all get full access.

Basic: Free

Pro: 2K

Premium: 5K

Custom

MISSION

Become Ethiopia's leading restaurant technology platform by delivering modern digital solutions for the hospitality industry.

WHY DECOUPLED?

Fee rate and subscription are independent. Set any fee rate for any restaurant without changing their plan. Lower barrier. Higher conversion.

BENEFITS

Reduce printing • Speed up service • Minimize errors • Better CX • Real-time insights • Multi-branch

No hard limits. No feature gating. Pure value.

OUR VISION

Become Ethiopia's Leading Restaurant Technology Platform

Delivering modern digital solutions for the hospitality industry — from QR menus to
full operational intelligence.

All-in-One Platform
